Price charts effective October 20, 2007. Prices may change.

**THIS IS NOT A QUOTE**

Please fill out this form with as much information as you can. None of the information provided will be discussed with individuals other than ones designated by you. Two quotes will be given, a preliminary based on this form (that will change), and a second one that'd be the final quote. The second quote is based on your exact requirements, the first quote is a general idea of the costs involved. After you receive the first quote, and wish to continue, we will do a follow-up.

## Your Contact Information

Please fill out all items in **bold**. If we don't have it, we can't contact you!

**Name:** \_\_\_\_\_ **Telephone:** \_\_\_\_\_ ext: \_\_\_\_\_

**E-Mail:** \_\_\_\_\_ Prefer contact via:  Phone  E-mail

**Company** (if program is for that company): \_\_\_\_\_

**Address** \_\_\_\_\_ **City** \_\_\_\_\_ **State** \_\_\_\_\_ **Zip** \_\_\_\_\_

When do you expect/need the program done by? \_\_\_\_\_

Do you have an estimated budget for this project?  Yes  No If so, what is it? \_\_\_\_\_

Our general price list is at the end of this form, if you do have a budget, we will try and work with you so that you won't go over it. This means that if our prices are over your budget — still fill it out! We may be able to lower our prices to accommodate you. Don't worry... if your budget is over what our prices are, we won't increase our prices because of it. If you don't want to list the budget, feel free to leave it off.

Will this be a completely new program (i.e. you don't want it based off of anything)?  yes  no

If it isn't a new program, what can we have access to?

Screenshots  The program itself  A demo of the program  Program's Source

## Programs utilizing a database, or database-like format

*Most programs fall into this category, but not all*

- I want a searchable list of names, dates, product or similar
- I will be entering a list of clients
- I will have a list of items, that has other information associated with it

## General Program Structure

*Information about the program's design, back-end & user interface*

- The program will be run on one PC, for only users on that PC
- The program will run for multiple users on multiple PCs
- The program needs to have a central location for data, that's accessible from other PCs
  
- The program needs to run on Windows based PCs
- The program needs to run on ANY operating system (this will automatically make the program a web-based program. APACHE web server with PHP and mySQL installed)
  
- Users will need to login to use the program
- Activity in the program (who does what) needs to be logged
- Different users will have different permissions to the program. Ex: some users will be able to write new information, but others will only be able to view the data
  
- The program needs to be able to have multi-language support
  
- There will be multiple forms (screens) visible at one time, and all must be able to be worked on at the same time
- There will only be one form (screen) visible at one time, and only that form will be worked on at a time
  
- The data needs to be "live" at all times (or whenever possible) to all users running the program
- The data that the program will be used for has to be altered in order for the user to use it

## Internet / Intranet

*Both the internet as in the World Wide Web, and your local LAN*

- Internet access is required
- Accessing internet settings or network status
  
- Local network (LAN) access will be used
  
- Winsock will be used

## Administration based information

*Items that may require "Administrator" account to run*

- Information will be read/written to the computer's registry
- Services on the computer may be queried, stopped or paused
- Event log access might be required
- Print jobs might be queried or cancelled
- Information about the network, or computer information may be retrieved or set
  
- A central program is required or desired to do routine maintenance for the data used by the other programs
  
- I want a client program running for each user, and a central computer to hold the data

## Other Information

*Anything else that you think could be relevant to the program that we didn't cover as far as pricing*

## Price Charts

*Note, prices can vary, and is to be used as a general guide. Request a quote for the actual amount.*

Development Time	Approx. Cost	Type of program (each timeframe includes prior items + listed)	Total Program Size
1 day	\$10	One screen	Under 200k
1 week	\$50	Multiple screens, limited database (no security, internet, etc)	200-400k
2 weeks	\$100	Simple database, no administration, etc	400-600k
3 weeks	\$250	Security, limited internet, limited admin	600-800k
4 weeks	\$500	Many screens, OR enhanced security, internet, admin	800-1MB
5 weeks	\$750	Internet access, admin utilities	1MB-1.1MB
6 weeks	\$1,000	On-Site development, or on-site debug (assuming local to us)	1.2MB-1.3MB
7 weeks	\$1,500	* See program size *	1.4MB-1.5MB
8 weeks	\$2,000	* See program size *	1.6MB-1.7MB
9 weeks	\$2,500	* See program size *	1.7MB-1.8MB
10 weeks	\$2,750	* See program size *	1.9MB-2.0MB
11 weeks	\$3,000	* See program size *	2.0MB-2.1MB
12 weeks	\$3,500	* See program size *	2.2MB-2.3MB
4 - 5 months	\$4,000	* See program size *	2.4MB-2.9MB
6 months	\$8,000	* See program size *	3.0MB
Size Based	\$2750/MB	Cost is \$2,750 * the total MB. Done for complex programs (time consuming), short deadlines, time periods over 6 months, and other situations.	Any
Hourly Fees	\$45-85/hr	Any	Any

## Payments Due

*When payments are due. Weekly/monthly payments require First month as retainer.*

Total Project Cost	Payment Terms (retainer is the fee before any work is done)
Under \$500	100% pre-payment due before any work is done
\$501-1000	75% retainer, 25% upon delivery
\$1000-2000	40% retainer , 40% upon first beta, 20% upon delivery
\$2000-\$9999	30% retainer , 40% upon first beta, 30% upon delivery
\$10,000-99,999	25% retainer , 50% upon first beta, 25% upon delivery — or % based on weeks 4 week program = \$2500/week @ \$10,000 (+first month as retainer) 8 week program = \$2500/week @ \$20,000 (+first month as retainer)
\$100,000+	% based on weeks/months, First Month as retainer 1 year program = \$8333.33/month @ \$100,000 6 month program = 16,666.66/month (4,166.66/week) @ \$100,000

## Terms & Conditions

*General stuff, just to make sure you understand*

Please know that prices and services may change from the time of this form, and you're filling it out. This is why this form is used for you to receive a QUOTE. This form, and prices therein, is NOT the quote, but just a general guideline for you, and for us in providing you one.

Most custom programs won't take more than 4 months... many will be done in under 2 months. This means that for the most part, a custom program will cost you between \$150-4000; however, it does not guarantee this.

Please return this entire SIGNED and DATED packet to us as soon as you can. There is about a 1 week lag between receiving the packet, a quote, retainer confirmation, and program start for companies or individuals LOCAL to us. The delay time can be up to 2 weeks for non-local companies or individuals

## Agreement

*You're agreement to this form.*

By Signing this form at the designated spot, you agree that the information you've provided here is accurate, and that you take full responsibility for any information given to us. Meaning, that you had permission to tell us what you told us. And that you understand that this form is not the quote itself, but a form needed to fill out before receiving a quote.
