

## *Slow month for news*

Just as with other months this year, not that much is going on at qrsevlo. We're still in the process of expanding, potentially moving our headquarters to a city (we're thinking Chicago, or a "small" town out in California).

qrsevlo did get new computers this past month. All brand new with vista OS. And thus leading to the one side effect

of this newsletters release online: we don't have an adobe acrobat version compatible with vista or this version of office yet!

Unfortunately, we've heard that there's some problems with the new version of the software and the OS — so we're waiting until the new release for now.

Of course we do still have the old computers with the old version, but we just haven't gotten around to putting it on the network yet.

So for now, there's going to be a lot of things looking a bit different until everything's settled in.

## *Heath Harvest Festival*

This year, the same as last, qrsevlo will be attending the Heath Harvest Festival in Robinson, IL. We always seem to be a bit unprepared when it comes. We have all these plans we're wanting to do, and some fall through due to one

problem or another. This year we were going to be highlighting our new restaurant — but since it's not open yet, that won't be happening.

However, unless something changes by then, we will have our new Temporary Module

Building System highlighted at the festival. In fact, we should be using it!

It's somewhat unique, modular, temporary, and a building system. Oh, and at variable costs that anyone could afford.

### New & Upcoming

- Events
- Where to expand

## *What's with the "ankh" anyway?*

No we aren't a religious affiliated corporation! Even if we may seem like a caring, religious bunch — religion isn't the reason for our policies.

An "ankh" is an Egyptian

symbol, it's on many, if not most, of their hieroglyphics in tombs, and is simply, "life", "eternal life" or even "give life". And we like the way it looks.

*Ankh — Life*

## *Hear a rumor? (Seen or Heard About Us?)*

If you've heard about us someplace online, in a paper, magazine, news media — please tell us! Unfortunately companies are sometimes the last ones to know when they're featured someplace!

Shocking to you I'm sure, but there's nothing quite like having about 500x the number of inquiries in a day to really send you rushing! And that happened to us in January when a popular magazine recommended one of our software programs to a few million people without warning.

We didn't mind, but had we of

known, we would have prepared for it.

So if you've heard of us somewhere, tell us. If you haven't — tell your local media agencies about us, and see if they might not want to do a little story on us.

We do have clients all over the world — 99.99% of our clients aren't even within 300 miles of our office!

Since we're online, the world is local — Everywhere's Local.

Tell your friends.

*Of course if you've heard the nasty rumor that we exploit the masses by using free classifieds, make an offer pricing, and 35% profit giving just to get free advertising places — how'd you hear that? We haven't started it yet!*
