

## *Still in the process of expanding*

In possibility of one of the longest attempts in history, we're still in the processing of trying to expand!

It's a sad day and age when a business idea, that's completely profitable, proven, useful, and almost guaranteed to gross a few hundred million a year — can't get investors or funding because people don't return calls that deal with such things.

So where and how we'll be expanding will end up being decided on whoever helps us out!

While we are looking in the Chicago area, we're now expanding our search outward for other cities that might want a multi-million dollar company in their town (that doesn't pollute, and pays well) to help out the local economy.

Apparently not all towns want this.

The joke around here is we should develop planet-killing toxins that has a 100% mortality rate for employees, and pay them minimum wage with no benefits. But that'd probably get support unlike our current business.

## *Upcoming Events*

Even though this is a busy time of year with all the holidays coming up, we have no events planned.

While it's true we were planning on having a winter event held in town for the community and less fortunate

families in the area; this is no longer the case.

It's not that we don't want to hold an event — it's that we're not allowed to advertise in the paper, and apparently not on the local radio either.

And as I'm sure most will agree: events that can't be publicized don't do well.

So we apologize to all families that can't benefit from us this winter here.

### New & Upcoming

## *What's with the "ankh" anyway?*

No we aren't a religious affiliated corporation! Even if we may seem like a caring, religious bunch — religion isn't the reason for our policies.

An "ankh" is an Egyptian

symbol, it's on many, if not most, of their hieroglyphics in tombs, and is simply, "life", "eternal life" or even "give life". And we like the way it looks.

*Ankh — Life*

## *Hear a rumor? (Seen or Heard About Us?)*

If you've heard about us someplace online, in a paper, magazine, news media — please tell us! Unfortunately companies are sometimes the last ones to know when they're featured someplace!

Shocking to you I'm sure, but there's nothing quite like having about 500x the number of inquiries in a day to really send you rushing! And that happened to us in January when a popular magazine recommended one of our software programs to a few million people without warning.

We didn't mind, but had we of

known, we would have prepared for it.

So if you've heard of us somewhere, tell us. If you haven't — tell your local media agencies about us, and see if they might not want to do a little story on us.

We do have clients all over the world — 99.99% of our clients aren't even within 300 miles of our office!

Since we're online, the world is local — Everywhere's Local.

Tell your friends.

*Of course if you've heard the nasty rumor that we exploit the masses by using free classifieds, make an offer pricing, and 35% profit giving just to get free advertising places — how'd you hear that? We haven't started it yet!*
