

New Software In Development

For the first time in almost three years, our software division is developing two new open-source software products!

The first program is the “Family Medical Records” that was originally in development many years prior. This program is being re-written from the ground up to take advantages of new technologies (.NET) so that the program can be maintained

and compatible with Windows XP, Vista and any other OS where the .NET 2.0 can be installed.

This program is currently being considered to be free for home and commercial users — with fees only for support, modifications and customizations (that we do).

The second program is a “Hotel Reservations” software application. While the primary version will be done in

the .NET framework, a web-based version will be available so any OS can be used.

This program will also be open-source. Keeping in mind that open-source software does not always mean free, there will be a set cost for hotels wanting the software. They will, however, also get the source code.

For any questions about these new programs, please contact us at: jlrodgers@qrsevlo.com

Waiting to hear about expansion

Yep, we’re still waiting on this one. We should be hearing something soon... should. If

anyone’s interested in this point, please feel free to contact us for more

information.

What’s with the “ankh” anyway?

No we aren’t a religious affiliated corporation! Even if we may seem like a caring, religious bunch — religion isn’t the reason for our policies.

An “ankh” is an Egyptian

symbol, it’s on many, if not most, of their hieroglyphics in tombs, and is simply, “life”, “eternal life” or even “give life”. And we like the way it looks.

Ankh — Life

New & Upcoming

- Desired Expansion Info should be received this month!
- New software in Pre-alpha stage

Hear a rumor? (Seen or Heard About Us?)

If you've heard about us someplace online, in a paper, magazine, news media — please tell us! Unfortunately companies are sometimes the last ones to know when they're featured someplace!

Shocking to you I'm sure, but there's nothing quite like having about 500x the number of inquiries in a day to really send you rushing! And that happened to us in January when a popular magazine recommended one of our software programs to a few million people without warning.

We didn't mind, but had we of

known, we would have prepared for it.

So if you've heard of us somewhere, tell us. If you haven't — tell your local media agencies about us, and see if they might not want to do a little story on us.

We do have clients all over the world — 99.99% of our clients aren't even within 300 miles of our office!

Since we're online, the world is local — Everywhere's Local.

Tell your friends.

Of course if you've heard the nasty rumor that we exploit the masses by using free classifieds, make an offer pricing, and 35% profit giving just to get free advertising places — how'd you hear that? We haven't started it yet!
